Can a 200 W solar panel power a house?

200 W solar panels are best used to charge portable batteries. They aren't ideal for powering a house because they produce far too little energy in a day. 200 W panels are best suited for off-grid use but still face the same problem as all solar panels. If the sun isn't shining, they can't provide power.

For a long time, 100-watt panels were the most popular, but as technology advanced and costs have decreased, the use of 200-watt panels is becoming more common. That being said, there are still more of the lower wattage panels on the market, although it is now not unusual to find the 200-watt solar panels in 12V and 24 Volt versions.
