

Greenlight Solar delivers reliable renewable energy solutions in Eswatini. We specialise in designing and installing custom solar systems for homes and businesses, with a focus on quality, efficiency, and sustainability. Our mission is to empower energy independence through expertly crafted solar installations.

The Project is a stand-alone mini-grid which consists of a centralised 35kW solar PV generation plant complete with 200kWh battery storages system and an AC LV reticulation network ...

We offer a comprehensive range of solar services, ensuring a seamless transition to solar energy for your home or business. Residential Discover our tailored solar solutions designed to meet the unique energy needs of your home, providing ...

The Project is a stand-alone mini-grid which consists of a centralised 35kW solar PV generation plant complete with 200kWh battery storages system and an AC LV reticulation network designed to service about 26 rural homesteads through an advanced smart metering system for billing.

Frazer Solar is developing a large-scale solar-storage project for IPP investor, owner and operator Frazium Energy. Phase 1 of the development involves solar PV coupled with battery storage to provide 200 MWH of dispatchable baseload electricity per day.

On behalf of Business Eswatini, it is a privilege to introduce this insightful market report on embedded solar generation. As the world transitions toward cleaner, more sustainable energy solutions, the role of solar power is at the forefront of innovation, offering exciting new avenues for growth and development.

We offer a comprehensive range of solar services, ensuring a seamless transition to solar energy for your home or business. Residential Discover our tailored solar solutions designed to meet the unique energy needs of your home, providing sustainable and cost-effective power.
