Africo solar Madagascar

Who is Africo solar?

Africo Solar is a reputable importer and wholesaler of solar products. Given the energy crisis that the country is facing, it comes as no surprise that the demand for renewable energy solutions is on the rise. We strive to be the answer to South Africans' woes by providing products that meet global standards to keep you powered up.

What is Scaling Solar in Madagascar?

Madagascar is currently the fifth country in Africa in which a Scaling Solar tender process was launched, after two tender processes in Zambia, one in Senegal, and another in Ethiopia. It is also the first Scaling Solar project to include solar energy storage requirements by pairing solar with batteries.

Is Madagascar ready for solar power?

With all regions of Madagascar enjoying over 2,800 hours of sunlight per year, the Grande Î le is the perfect location for development of solar power, with a potential capacity of 2,000 kWh/m² /year. The Government is counting on this potential to fulfill its objective of providing energy access to 70% of Malagasy households by 2030.

Why should you choose Africo solar?

We strive to be the answer to South Africans' woes by providing products that meet global standards to keep you powered up. At Africo Solar, customer service is important to us.

Three large-scale heavy fuel oil (HFO) plants in Madagascar are being hybridised with solar PV thanks to a USD 6 million bridge loan from REPP to developer Lidera Green Power (Lidera). Currently, 75% of the country"s power is ...

With the opening of the 8 MW ambitious solar power facility, Ehoala Solar Park, Madagascar's industrial operations will take a major step toward decarbonization. President Andry Rajoelina of Madagascar officially

opened the solar factory, which is slated to expand further, in the southern city of Taolagnaro, also referred to

as Fort-Dauphin.

As part of the new Malagasy government's 100-day program, solar energy will play an important role in

electrification initiatives. Over the next few weeks, solar power generation equipment will be installed in large

numbers across the island.
