The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) proudly announces the inauguration of an electrification project in Ch&#227; das Caldeiras on the island of Fogo, Cabo Verde, powered by a solar photovoltaic mini-grid.

Afritech Solar Systems. Discover how our solar solutions can help bring light to your home, school, hospital, or business. We offer reliable, clean, and affordable energy options that are tailored to meet your specific needs.

Solar energy production capacity is expected to increase in Cape Verde over the next few years. This is the aim of the tender recently launched by the Cape Verdean government's Special Projects Management ...

Cabo Verde's infrastructure and basic services had been insufficient to meet the demands and opportunities of a rapidly growing economy. Cabo Verde had very limited natural resources and all fuel products had to be imported. More than 50 percent of the country's population was located in urban areas, where the level of social

Solar energy production capacity is expected to increase in Cape Verde over the next few years. This is the aim of the tender recently launched by the Cape Verdean government's Special Projects Management Unit (UGPE) for the construction of solar photovoltaic power plants on four islands.

The project, financed under the ECOWAS Renewable Energy Facility (EREF) with support from USAID and Power Africa, involved the design, supply, installation and commissioning of a 40 kilowatt (kW) solar photovoltaic mini grid plant with 150 kW battery storage and a 50-kW generator.

Our commitment to quality and innovation drives us to implement solar street lights, making communities safer and more vibrant after dark. We believe in the potential of solar energy to transform lives and are dedicated to making a lasting impact on the African continent.

The Government of the Republic of Cabo Verde has received financing from the African Development Bank hereinafter called the Bank toward the cost of the Cabo Verde Technology Park (CVTP) - Phase II, and intends to apply part of the proceeds toward payments under the contract for Purchase a Photovoltaic Solar Micro production System for self ...
