

Who is Aggreko energy transition solutions?

Aggreko Energy Transition Solutions (ETS), a division of Aggreko Ltd., develops, owns, and operates utility scale and distributed solar and battery storage projects across the United States. ETS generates value by providing turnkey energy transition solutions to its customers that deliver affordable, reliable, and clean power.

Why did Aggreko create a new division?

Blair Illingworth, CEO at Aggreko, stated, "The creation of the new division with Mr. Polacek and his team will enable Aggreko to meaningfully support the move towards decarbonizing the grid and enhancing energy security through a commitment of capital and organizational resources."

What makes Aggreko ETS different from Infiniti?

Jerry Polacek, President of Aggreko ETS, commented, "Combining the global scale, financial strength, and industry expertise of Aggreko with Infiniti's distributed solar development and engineering, procurement and construction ("EPC") capabilities uniquely positions us to deliver turnkey decarbonization solutions to our customers."

Explore Aggreko's clean energy transition in the mining industry with renewable sources like solar, wind, and LNG to provide mining power supply. Enquire today. ... Cleaner & Renewable Energy Solutions for Mining. More information. Day-to-day services for mining operations.

You need a partner that can help you navigate the Energy Transition and prioritise the range of new technologies and fuel alternatives to consider in your energy mix. Partnering with Aggreko will help you in your transition whether that's to a lower carbon future, decentralised economy or through digitalisation and energy management optimisation.

STAMFORD, CT / HAMILTON, NJ -- July 8, 2024-- Aggreko Energy Transition Solutions (ETS), a division of Aggreko, a global leader in energy solutions, today announced the acquisition of Infiniti Energy, a premier US-based commercial and industrial (C& I) solar company, from Upper Bay Infrastructure Partners (Upper Bay). Upper Bay, a mid-market infrastructure ...

Sustainable and hybrid power solutions to drive the manufacturing industry's energy transition even further. We can help you bridge the gap between fossil fuels and renewables such as solar power in an affordable way, ... While Aggreko's hybrid energy solutions can utilize both diesel and gas, the gas fuel option produces much fewer ...

We prioritise sustainable power solutions, offering hybrid power systems and the utilisation of Associated Petroleum Gas to minimise carbon footprints. Our bespoke solutions are designed to align with your energy

transition goals, ensuring that you meet environmental standards while optimising production and reducing emissions

Every year, thousands of homes and businesses lose power supply for hours or days because of emergencies and natural disasters. Many utility power suppliers and distributors reactively call for support during these incidents, resulting in increased costs, delays to restoring power, and a reduction in cost-efficiency due to over-specification for the emergency response.

Where are you in your Energy Transition? The Energy Transition looks different for every company. Each has its own challenges that dictate how quickly and easily it can reduce emissions and move to cleaner energy. Whatever stage of your Energy Transition you've reached, Aggreko can help you take the next steps.

Explore Aggreko's clean energy transition in the mining industry with renewable sources like solar, wind, and LNG to provide mining power supply. Enquire today. Skip to main content. ... Innovative solutions that use a variety of alternative fuels are key to overcoming these challenges. Read our report to see how we have already helped some ...

Aggreko Energy Transition Solutions (ETS), a division of Aggreko Ltd., develops, owns, and operates utility scale and distributed solar and battery storage projects across the United States. ETS generates value by providing ...

Discover Aggreko's mining industry solutions, such as mining power supply and flexible energy solutions, that help you to operate effectively. Enquire today. ... You need a partner that can help you navigate the Energy Transition and prioritise the range of new technologies and fuel alternatives to consider in your energy mix.

Aggreko is a world-leading provider of mobile modular power, temperature control and energy services. We provide temporary turnkey solutions, allowing our customers to focus on their business and production goals, knowing that everything related to power, heating, and cooling is in expert hands.

In the third instalment of Aggreko's series on the energy transition in the oil and gas industry, we cover switching to gas as a transition fuel. ... Solutions. Solutions; Contingency planning; Disaster Recovery; Microgrids and Energy Storage; High voltage power; Rent vs buy which is right for you; Remote monitoring; Combined Heat And Power;

We can engineer a customized solution to match your individual needs and provide full turnkey, dependable solutions while ensuring power reliability and the highest of safety standards are maintained.. As a key global player in this market, we have more than 1 GW of installed power capacity for projects using APG as their fuel totalling more than 180 customer projects in every ...

With diesel having been key to powering many different phases of a project's life-cycle for decades, a transition to alternative fuels must be meticulously planned and executed. Breaking down your Energy Transition into clear phases makes it easier to approach and removes the risk of trying to do too much, too soon.

We are committed to supporting the transition to Net Zero, helping safeguard our planet for future generations. To do so, we are innovating cleaner energy solutions that enable our customers to make the switch to more sustainable solutions . At the same time, we are working hard to reduce emissions from our facilities and operations. 2023 ...

Our final energy transition blog post takes you through when and how to incorporate renewable energy in your oil and gas industrial operations. ... Aggreko's modular smart hybrid solutions enable the seamless integration of this old and new technology. This is why you should consider them at all stages of your Energy Transition.
