

What is agrisolar Europe?

Agrisolar Europe is an initiative by SolarPower Europe. To get to know more about us and solar power in general, please visit our website. We regularly post on our socials about all things solar power, make sure to follow! Do you want to stay up to date about the exciting developments in Agrisolar?

What is the biggest solar PV plant to be built in Bulgaria?

This is also one of the biggest solar PV plants to be constructed in Bulgaria in recent years. With the solar PV plant, Aurubis Bulgaria will save some 11.700 MWh per year from grid electricity consumption (sufficient for approx. 12.000 households), which will cover an average of 2.5% of the electricity needs of its smelter facility.

When did smart solar - EOOD start producing electricity in Bulgaria?

On April 15, 2011, SMART ENERGY GROUP's first own 2MWp photovoltaic plant in the village of Rakovskovo was connected to the country's energy system and began producing electricity for the Bulgarian market. We thank SMART SOLAR - EOOD for the demonstrated high professionalism, use of new technologies in the field of solar energy.

Should Bulgaria Invest in solar energy?

This approach risks saddling the country with outdated infrastructure as well as an increasingly uncompetitive energy system. It is now economic for commercial and industrial customers in Bulgaria to invest in solar PV projects, without subsidies and without government incentives.

Why are distributed solar PV projects being built in Bulgaria?

Most distributed solar PV projects currently being built in Bulgaria are being configured purely for self-consumption; in other words, they are not connected to the grid, and are being used strictly to reduce the customer's electricity bill. This makes it harder for distribution system operators (DSOs) to monitor, and control.

Will solar power increase in Bulgaria in 2030?

According to Bulgaria's NECP, the annual production of electricity from renewable energy sources is projected to increase from the current 8.673 GWh to 13.035 GWh in 2030. To achieve this, solar PV generation is projected to increase the most -- more than three-fold over the course of the next ten years.

Of this, 9 per cent is currently generated from solar energy and 24 per cent from wind energy. However, due to the Paris Climate Agreement and the planned energy turnaround in Germany, the share of sustainable and renewable energies must be increased in order to achieve the climate targets: As early as 2030, 65 percent of the energy used is to ...

The International Specialized Exhibition BATA AGRO is the largest forum in Bulgaria for the presentation of agricultural machinery and everything for agriculture. The exhibition has been organized since 2010, and over the years it has won the trust of thousands of farmers with good organization, variety of exhibits and loyal merchants.

Instituto voltado para o desenvolvimento da agricultura familiar. A horta solar tem como objetivo integrar a escola com o campo por meio de hortas solares que podem ser convencionais ou por hidroponia com o principal desembrulhe menos e descasque mais.

At COLOMBO AGRO, we specialize in the importation of innovative agricultural machines and technologies, crafted with precision and quality by our partners. Our product line includes No-Till seed drills, navigation systems, autonomous carriers, sprayers and other equipment, designed to meet the diverse needs of our customers.

Diese innovative Entwicklung hat noch einen weiteren maßgeblichen Vorteil, der die Bauweise und auch Bauanträge für Agri-PV revolutionieren wird: Da die organische Leichtbauweise ähnliche Strukturen aufweist, kann mit einer Erhöhung der Biodiversität auf der Fläche gerechnet werden, denn die gesponnenen Flachstrukturen bieten idealen Unterschlupf für ...

AGRO BORD EOOD is one of Bulgaria's largest trading companies, which exports grains and oilseeds worldwide. The geography of our supplies includes various countries of Europe, Africa and Asia. In 2022 we decided to widen our activity and started to cooperate with best farmers of Bulgaria, Romania and Hungary. Having a good export experience, we ...

AGRO Solar nadaljuje uspesno zgodbo angleskega podjetja Thermal-Drone Ltd na področju načrtovanja, izgradnje in vzdrževanja sončnih elektrarn. 1.2 GW načrtovanih in zgrajenih ter priključenih sončnih elektrarn v Združenem kraljestvu, Evropski uniji in Aziji, ter 1.33 GW elektrarn v vzdrževanju, je družbi delo ogromen portfelj znanja in izkušenj, katerega zelimo uresniti v ...

AGROS is one of the first companies in Bulgaria, established in 1992. In 1998, due to the expansion of its operations, it profiled into three trademarks, which today work in a team like a well-oiled machine in favour of modern agriculture. ...

Im Jahr 2020 entstand aus der gemeinsamen Arbeit von Hilber Solar und der nachhaltigen Unternehmensberatung BE Solutions & Blue Systems Design GmbH die Firma AgroSolar Europe GmbH. Die Unternehmensgruppe BE Solutions von Markus Haastert entwickelt seit vielen Jahren nachhaltige technische Lösungen nach dem Vorbild der Natur. Haastert betreut ...

Apesar do segmento rural ser o terceiro com maior número de conexões e potência instalada, apenas 13% da energia solar gerada no Brasil é direcionada às áreas rurais, segundo a ABSOLAR (Associação Brasileira de Energia Solar Fotovoltaica). Isso demonstra que grandes e pequenos produtores ainda estão sofrendo prejuízo, afinal, a agricultura poderia estar se ...

AGRO Solar -- Agrivoltaika Najnovejša metoda souporabe kmetijskega zemljišca za proizvodnjo električne energije s pomočjo solarne tehnike in kmetijstva. Skok na vsebino // Skok na meni +386 64 263 806 info@ag-solar.si. AGRO Solar -- ...

In the ancient hamlet of Borisovo, Bulgaria, Solplanet's solar expertise shines atop an industrial rooftop, a new beacon for the green energy revolution. With precision and care, MIK Green ...

Novice; Sončne elektrarne; Nadzor in vzdrževanje; O nas; Kontakt; Kontakt Vas partner za projektiranje, izvedbo in vzdrževanje agrivoltaike, sončne elektrarne na degradiranih področjih ali ...

Die innovativen Agrosolar PV-Systeme von AgroSolar Europe verbinden auf intelligente Weise Landwirtschaft mit regenerativer Stromerzeugung. Dazu werden Solarmodule zur Stromerzeugung so eng und zwischen landwirtschaftlichen Flächen errichtet, dass diese weiterhin rentabel bewirtschaftet werden können.

At "Agro Bulgaria" Foundation, our mission is to create healthier and more harmonious living environments, protect the nature and support the Bulgarian agriculture. Our dedicated team of experts is committed to safeguarding the well-being of our communities while promoting ecological balance and sustainability. On a micro level we also do ...
