

What is the myenergi Libbi?

The MyEnergi Libbi is an intelligent battery storage system for residential applications. The system combines: The Libbi lets you store your self-generated energy to use when you need it most. Charging the Libbi is possible with excess solar generation or using cheaper overnight electricity tariffs.

Does Libbi work with other myenergi devices?

libbi is designed to work in harmony with your other myenergi devices. Prioritise where stored electricity is diverted, to use in your home, to charge your EV, or heat your hot water. Whether you want to charge libbi from solar, the electricity grid, or a mixture of both, the choice is yours.

Why should you buy a myenergi Libbi battery storage system?

The MyEnergi battery storage system keeps hold of excess energy during the day and distributes it at night. This helps to reduce your energy bills and reduce reliance on the grid. Additionally, the MyEnergi Libbi is known for its sleek design, high efficiency, and durability, making it a smart investment for any eco-conscious homeowner.

Where are myenergi Libbi batteries made?

The MyEnergi Libbi batteries are made in the United Kingdom. The company is deeply rooted in its commitment to local manufacturing, believing that it not only ensures high-quality production standards but also significantly reduces the carbon footprint associated with shipping products from overseas.
