

Atlantic Green has signed a deal worth almost \$200 million with Ameresco, which will build a new 300MW battery energy storage system (BESS) alongside Envision Energy. The Cellarhead BESS project will be connected to National Grid's Cellarhead substation in the West Midlands and have a maximum energy capacity of 624MWh.

Image: Ameresco. Renewable energy developer Ameresco and EPC contractor Sunel Group will together bid on 1.5GWp of solar and energy storage projects across Europe. The firms have established Ameresco Sunel ...

System integrator Ameresco has secured a 313MWh battery energy storage asset agreement with Colorado electric cooperative United Power. Under the 20-year agreement, Ameresco will install battery assets on multiple ...

Central African Republic: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

System integrator Ameresco has secured a 313MWh battery energy storage asset agreement with Colorado electric cooperative United Power. Under the 20-year agreement, Ameresco will install battery assets on multiple sites, with a total of 78.3MW/313.34MWh battery storage system on the cooperative's electric distribution system. The project is ...

Renewables and energy storage developer Ameresco will design and build an Illinois solar farm which could generate 37,000 MWh in its first year of operation, the company said. Work on the DePue solar farm is expected to begin next summer. Ameresco hopes to complete it by late 2020.

US-based cleantech integrator Ameresco and the Sunel Group have teamed up to bid for 1.5GWp of solar photovoltaic (PV) and battery energy storage system (BESS) projects in the UK and Europe.. Located across ...

This flagship project, one of the largest solar sites in Europe, underscores Greece's commitment to sustainable energy and economic resilience. Ameresco Sunel Energy SA is a joint venture between Ameresco, Inc., (NYSE: AMRC), a leading cleantech integrator specializing in energy efficiency and renewable energy, and Sunel Group, an ...

This is Ameresco's 12 th renewable energy project with Republic, with another 10 projects in various stages of development, permitting or construction. "Creating clean energy, reducing harmful emissions and making a

tangible impact on the environment towards a carbon-neutral future depends on collaboration," said Michael Bakas, Executive ...

Ameresco, Inc. is a leading independent provider of comprehensive energy efficiency and renewable energy solutions for facilities throughout North America and the United Kingdom, delivering long-term value through innovative systems, strategies and technologies. Ameresco's solutions range from upgrades to facility's energy infrastructure to ...

US-based technology integrator Ameresco and UK-based energy contractor Sunel are to bid for solar projects exceeding 1.5GW in Greece, Italy, Romania, Spain and the UK. The two combined companies have ...

System integrator Ameresco has completed and put into commercial operation eight battery energy storage system (BESS) projects for US utility United Power in Colorado. The projects are located at eight different substations operated by the utility and total 78.3MW of power and 313.34MWh energy storage capacity, an average discharge duration of ...

FRAMINGHAM, Mass. & ATHENS, Greece - Ameresco Sunel Energy SA has today announced that Delfini, 100 MWp solar photovoltaic (PV) project in Greece, has reached commercial operation. Ameresco Sunel Energy SA, a joint venture company established in Greece between Sunel Group and Ameresco, Inc., was selected by Cero Generation, a leading European solar ...

Ameresco, Inc. and United Power, Inc. have completed the construction of what is now Colorado's largest distributed battery energy storage system. This milestone marks Ameresco's largest wholly owned battery energy storage system (BESS) portfolio to date.. The newly constructed BESS assets, spread across multiple sites, provide a combined capacity of ...

As the eighth renewable energy project with Republic Services, Ameresco was the partner chosen to develop the landfill gas to RNG facility by converting biogas into a low-carbon fuel source. The facility achieved commercial operation in August 2023 - just over one year since the groundbreaking in June 2022 - and is capable of processing ...

San Antonio, TX -- October 17, 2024 -- Frost & Sullivan recently researched the Energy Services industry and, based on its findings, recognizes Ameresco, Inc., (NYSE: AMRC), with the 2024 Company of the Year Award. Ameresco is a well-positioned cleantech integrator and renewable energy asset developer offering a broad solution portfolio to accelerate decarbonization, ...
