Under a 10A load Ampace has 14Wh capacity compared to Molicel P45b 13Wh. It's also worth noticing, that  
the nominal voltage from the datasheet is 3.7V, same as with lipos, compared to 3.6V for other li-ions. ... For a  
2P JP40 pack using 40x45mm 0.20 that's ~9mm&#178; and 8ga equivalent for 200A/300A and doubtful  
you'll find an airplane using 200A ...

To address the increasingly complex operating environments of power tools, Ampace unveils the  
Jumbo-Power series of cylindrical batteries and launched the JP40, its first mass-produced product.

ATL?(TDK100%??)?CATL??????Ampace? ??????????. Portable power station developed by Ampace, a  
joint venture of ATL ( TDK's wholly-owned subsidiary) and CATL ??????????????????????

In August 2023, Ampace's independently developed JP40 product marked a milestone by achieving  
large-scale mass production of 21700 cylindrical lithium batteries for the first time globally, ...

The Ampace JP40 seem to be an excellent choice given the internal resistance, I think they can compete with  
the P50B depending on the use. I think that manufacturers will continue to focus their work on the high

discharge capacity of the cells and this technology will be able to supplant li-Po in most RC applications (except micro/nano aircraft

Never be without power! Ampace offers high-quality, long-lasting portable power stations for camping, emergencies, and everyday adventures. Choose from a variety of capacities and features to find the perfect portable charger for your needs. Shop Ampace today and experience reliable, on-the-go power!
