

Apply for solar panel Trinidad and Tobago

What are the solar photovoltaic systems in Trinidad and Tobago?

In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.

How can energy service companies support energy audits in Trinidad & Tobago?

Energy Service Companies (ESCOs) for the conduct of energy audits can be expected to play an increasingly important role, and T&T will be seeking to build local capacity in the conduct of energy audits and other energy services. Incentives currently being offered to encourage the conduct of energy audits in Trinidad and Tobago are as follows:

What is the Trinidad and Tobago public utilities programme?

The Utilities Assistance Programme (UAP) in Trinidad and Tobago is aimed at enhancing the real income of beneficiaries by cushioning the effects of the rising costs of public utilities. It is managed by the Ministry of Public Utilities in collaboration with the Trinidad and Tobago Electricity Commission (T&TEC) and the Water and Sewerage Authority (WASA).

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.
