

Who is Aquion Energy?

Aquion Energy was a Bethlehem, Pennsylvania and Washington, D.C. -based company that manufactured sodium ion batteries (salt water batteries) and electricity storage systems.

What happened to Aquion Energy?

In March 2017, Aquion Energy filed for voluntary bankruptcy under Chapter 11. In June 2017, bidding starting with a stalking horse offer of \$2.8 million from an Austrian battery firm, BlueSky Energy.

What is Aquion aqueous hybrid ion battery?

Aquion's Aqueous Hybrid Ion battery. Image: Aquion Energy. Aquion Energy, maker of energy storage batteries and whole systems based on a novel electrolyte with a chemical composition similar to saltwater, is back in business.

When did Aquion Energy become a chemistry?

Aquion Energy was spun out from CMU in late 2009 after the first-generation version of the AHI chemistry was developed in the labs at CMU in 2008 by Dr. Whitacre, who graduated from Oberlin College in 1994 with a BA in Physics.

What is the Aquion battery system?

The Aquion battery system is a reliable and flexible modular energy storage solution that optimizes existing generation assets and enables broad adoption of renewable energy technologies such as wind and solar, as well as reduced reliance on fossil fuels, and optimization of existing grid-tied generation assets.

When did Aquion Energy go bankrupt?

In March 2014, they announced that commercial shipments of batteries would begin in mid-2014, and in May 2014 announced they had shipped 100 units. In March 2017, Aquion Energy filed for Chapter 11 bankruptcy, citing the inability to obtain additional funding.

Aquion Energy is fundamentally changing the economics of power generation, transmission and distribution by developing and commercializing cost-effective energy storage solutions that are safe, reliable, and sustainable from nontoxic components as simple as saltwater. Based on the research of Carnegie Mellon University Professor Jay ...

Aquion Energy, Products, and Trajectory. Aquion Energy is a company founded in 2008 by Jay F. Whitacre and Ted Wiley. The company branded its saltwater battery product with the Aqueous Hybrid Ion (AHI) battery, a 100% safe battery that is nonflammable and nonexplosive. This company received funding from popular investing companies like Kleiner ...

7 Aquion Energy, aquionenergy , by request, accessed December 22, 2014. Under the American Recovery and Reinvestment Act of 2009, the U.S. Department of Energy and the electricity industry have jointly invested over \$1.5 billion in ...

Contact Aquion Energy support for assistance. Homeowners All technical and field support for Aquion batteries is provided by the installer or distributor who installed the system. Contact your installer for all inquiries and support. Businesses and Utility Customers Please review the operations manual for your products - almost all questions should already be answered in...

Aquion Energy and its partners demonstrated a low cost, grid-scale, ambient temperature sodium-ion energy storage device. The energy storage chemistry in this device uses an electrochemical couple that combines a high capacity carbon anode with a sodium intercalation cathode capable of thousands of deep discharge cycles over extended periods of ...

Aquion Energy, Schneider Electric and Azimuth Energy complete AC/DC nanogrid with solar-plus-storage September 13, 2016 Three firms have completed an AC/DC nanogrid using solar-plus-storage technology at the Illinois Institute of Technology's (IIT) Keating Sports Center in the US.

US energy storage technology firm Aquion Energy Inc said on Friday it has emerged from Chapter 11 protection and resumed its operations. The company has developed and makes the Aqueous Hybrid Ion (AHI) batteries and energy storage systems. ... Hong Kong-based Yung's Enterprise, and the venture capital arms of Royal Dutch Shell (AMS:RDSA) and ...

Follow our press releases for the latest goings on with Aquion Energy and the energy industry in general. There is always something new going on. Technical support. Contact your installer for all inquiries and support. All technical support, field support, and product documentation will be provided by the dealer or distributor who installed ...

Image: Aquion Energy. & ldquo; When dismantled, the powder inside the batteries is clean enough that inventor Jay Whitacre has joked that he could safely eat it." This article requires Premium Subscription Basic (FREE) Subscription. Enjoy 12 months of exclusive analysis. Subscribe to Premium.

The system also uses Aspen batteries from Aqueous Hybrid Ion batteries manufacturer Aquion Energy, and power control electronics from Schneider Electric. The nanogrid, which will increase energy efficiency and provide backup power, supports both alternating current (AC) and direct current (DC) loads. While the Keating center nanogrid is ...

US energy storage technology firm Aquion Energy Inc said on Friday it has emerged from Chapter 11 protection and resumed its operations. The company has developed and makes the Aqueous Hybrid Ion (AHI)

...

Hong Kong seeks to achieve a low carbon future by investing in renewable energy solutions. With almost all its energy demand met by imported supply, primarily from Mainland China, developing Hong Kong's indigenous renewable energy from offshore wind offers the potential to meet the city's low carbon ambition and, at the same time, pursue energy ...
