

Why have Argentine energy shares soared so much?

Share prices for many Argentine energy companies have more than doubled since Milei's victory, building on explosive growth in recent years. Shares in Vista Energy, which has benefited from its narrow focus on Vaca Muerta's shale oil to become Argentina's largest non-integrated producer, have soared almost 700 per cent in the past three years.

Could Argentina be a major energy exporter?

In a remote, scrubby stretch of Patagonian desert, Argentina's future as a major energy exporter is taking shape. A team of 10, working in September in a corner of the vast Vaca Muerta shale formation in the western province of Neuquén, hauled 75cm-thick carbon steel tubes into place and welded them together to build an oil pipeline.

Will YPF and Shell develop liquefied natural gas in Argentina?

Argentina's state-run oil company YPF and oil major Shell signed an agreement to develop the country's flagship liquefied natural gas (LNG) project, the companies said on Thursday.

Why are oil and natural gas production rising in Argentina?

Crude oil and natural gas production in Argentina are both nearing record highs, driven by increasing output from the Vaca Muerta shale formation, which is offsetting declining output from conventional oil and natural gas fields.

Why is Argentina still a clean power producer?

With Argentina still to cross the 50% clean power generation threshold on an annual basis, it is clear the country's power producers still have work to do in order to match regional rivals and make good on government aims to reduce emissions.

How much crude oil does Argentina export a year?

Argentina's crude oil exports increased by an average of 33% per year from 30,000 b/d in 2017 to 128,000 b/d in 2023. Shale crude oil accounted for about 70% of crude oil exported in 2023. Argentina's primary destinations for crude oil exports in 2023 were the United States, Brazil, and Chile.

La Superintendencia de Servicios de Salud informa que, con el objetivo de brindar mayor transparencia en la gesti3n, publica de manera anticipada los subsidios por reintegro de SURGE y SUR destinados a las obras sociales. Esta publicaci3n incluir225;- - Las obras sociales beneficiarias - El monto objetivo a distribuir

Harbour Energy is active in the province of Neuquén in central Argentina, as well as onshore and offshore Tierra del Fuego in the south of Argentina. Off the coast of Tierra del Fuego, Harbour has an interest

in the CMA-1 (Cuenca Marina Austral 1) concession which forms the backbone of the country's energy supply.

Opinion: Surge in Argentina hydro output slashes power sector emissions. Argentina's higher hydro load also helped South America's second largest economy lift the share of clean power in electricity generation to a record 59% in September, up from 45% in September 2022, data from think tank Ember shows.

oil fields, Surge oversaw 916 active net producing wells and averaged approximately 54,733 BOED of production in Q2 2022. Surge was founded in 2015 via a whole equity purchase of our Hoople assets from Juno Energy II, LLC. Surge has grown through acquisitions and ongoing development activities. Since 2015,

Argentina's new government will cut energy subsidies and devalue the peso by 50% in a bid to deal with a massive fiscal deficit. The government will also cancel tenders for public works, the new ...

Argentina: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all ...

Argentina's government expects investments in the country's energy sector to reach up to \$15 billion in 2025 and \$16.5 billion in 2026 thanks to its market deregulation push, Energy Secretary...

Nuestras soluciones están materializadas en termotanques solares de fabricación propia, sistemas de energía solar fotovoltaica autónomos y de inyección, sistemas solares de climatización de piscinas, equipos de aire y bombas solares. Contribuimos en el cuidado del medio ambiente a través del impacto positivo que genera la utilización de nuestros equipos.

HYDRO MOMENTUM Argentina's hydro power generation through September totalled 28 terawatt hours (), which marked a 36% jump from the same period in 2022 and the highest cumulative tally for that period since 2018, Ember data shows. The greater hydro output was driven by heavy rains in May and June, which caused localised flooding and pushed water ...

Surge Energy Limited (Surge) is a company that specializes in manufacturing and revalidating of steel LPG cylinders. It was incorporated in 2017 and is located in Kisumu, Kenya. The strategic location provides convenient access to Kenya's capital city, Nairobi, the Mombasa Port through the Internal Container Depot (ICD), and the entire East ...

1 ??· The global appetite for LNG continues to surge, causing various stakeholders, especially those within the U.S. energy sector, to grapple with the ramifications of this growth. U.S. Secretary of Energy, Jennifer M. Granholm, has particularly underscored the pressing need for cautious evaluation of LNG export authorizations.

Nuestras soluciones están materializadas en termotanques solares de fabricación propia, sistemas de energía solar fotovoltaica autónomos y de inyección, sistemas solares de climatización de piscinas, equipos de aire y bombas ...

Serge Energy is a European based Green, Renewable and Sustainable Energy Production Company. We specialise in providing clients with access to clean-energy investments, in geographically safe, and politically secure, locations in Europe. The returns that we find for clients, from renewable-energy investments, are towards the top of the scale ...

1 ??· Surge Energy Inc. is a Canada-based oil focused exploration and production (E& P) company. The Company's business consists of the exploration, development and production of oil and gas from properties in Western Canada.

Argentina, a key player in the global lithium market, is witnessing a significant influx of investment into its lithium mining sector. As the demand for lithium continues to rise, driven by the clean energy transition and the growth of electric vehicles (EVs), the country's rich lithium reserves are attracting attention from international investors and companies.

23 ????· Surge Energy Inc. has sold its non-core gas-weighted assets in Alberta for \$9.5 million, significantly streamlining its focus on its high-performing core oil regions in Sparky and SE Saskatchewan ...
