

Welcome to the web site of Green Solutions Aruba. We provide energy efficient solutions to households and businesses. Our philosophy is to provide a complete consultancy to our clients with a focus on reducing energy consumption and the flow on effects for the environment. Why solar energy?-Clean, renewable energy-Add value to your property

Photovoltaics (PV) is a method of generating electrical power by converting solar radiation into direct current electricity. Lower your monthly electricity bill with one of our solar back up packages.

Better Solar Aruba delivers affordable solar solutions for your home and business. Our motto is: Free energy for Aruba. We can provide and install a complete solar solution or you can choose from our Cash & Carry packages.

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. We are proud to be the only company in Aruba that is fully focused on our customers keeping these two things in mind: How can you start saving money as soon as possible? How can we make the transition to sustainable energy, as easy as possible?
