

Reliability is at the heart of ASEA Power Systems. We pride ourselves on delivering unparalleled reliability, ensuring that our customers have a seamless and secure connection to shore power ...

ASEA Power's extensive network of trusted service partners are strategically located at major ports worldwide to provide maintenance and emergency repairs whenever you need it. With 26 years of experience, we stand at the forefront of marine innovation and quality, supported by the largest network of authorized service providers in 127 countries.

The Association of Power Utilities of Africa (APUA), formerly known as the Union of Producers, Transporters and Distributors of Electrical Energy in Africa (UPDEA), was created in 1970 with its headquarters in Abidjan, in Côte d'Ivoire. Today the association has 57 active members, as well as affiliate, associate and observer members.

Reliability is at the heart of ASEA Power Systems. We pride ourselves on delivering unparalleled reliability, ensuring that our customers have a seamless and secure connection to shore power no matter where their journey takes them. Our products are trusted by yacht owners, marinas, and shipyards worldwide.

As an authorized dealer, we offer top-quality ASEA Power Systems, designed for seamless power management in marine environments. Ideal for yachts, commercial vessels, and docked boats, ASEA ensures consistent, clean power and efficient energy conversion from multiple sources.

ASEA shore power systems offer a viable solution by providing a clean and quiet alternative to traditional onboard power generation. This shift towards shore power aligns with the International Maritime Organization's (IMO) 2030 and 2050 targets for greenhouse gas emissions reduction, signaling a commitment to sustainable shipping practices ...

ASEA Power Systems is the world leader in compact and lightweight power conversion equipment with power levels ranging from 8-1,000kVA and 3,500+ installations to date. With over 25 cabinet selections, ASEA Power has a solution for every new build or retrofit application along with a diverse range of air cooled and liquid cooled converters.
