

Chinese photovoltaic and energy storage solutions supplier Sunova Solar Technology Co Ltd announced on Thursday that it will unite with Thornova Solar, its sister brand used in North America and Mexico, and move forward with a new name.

Thornova Solar is a U.S.-based solar company that offers high-performance solar modules for the utility, commercial and residential solar markets in North America. With our state-of-the-art automated production facility in Indonesia, we deliver 2.5 GW of solar modules, with 100% of those products dedicated to the North American market.

Sunova Solar becomes Thornova Solar! As the ever-growing, innovative and expanding Tier 1 global energy solutions company that we are, we will standardise our branding globally, reflecting our core values in our brand name.

Courtesy: Thornova Solar The production facility is equipped with an automated guided vehicles (AGVs)-based transport system of mobile robots connected by a 5G network. It uses the "newest flexible intralogistics automation solutions," according to Thornova, further enhancing the AGVs transporting materials to and fro.

Thornova solar panels are backed up with a 15-25-year product and 25-30-year performance warranty. Thornova offers a broad range of panels for both home systems and commercial installations. Thornova Solar presents an interesting proposition for those seeking high-performance solar panels.

Sunova has decided to unite with its sister brand Thornova Solar already used in North America and Mexico. The name based on the Norse pantheon hero Thor, representing perfectly the ...
