

What is the Barbados national energy policy?

The Barbados National Energy Policy (BNEP) 2019-2030 outlines Barbados' central vision regarding energy policy and planning and is designed to achieve the country's transformational goal of becoming a 100% renewable energy and carbon neutral island-state by 2030. Part of this policy includes providing and achieving:

Why should Barbados invest in the energy sector?

The energy sector in Barbados should be invested in to foster development, promote energy security, reliability, affordability, and establish and maintain a sustainable sector. This can be achieved through innovation and workable partnerships which promote a strong economy and a healthy environment.

Is Barbados exploring for fossil fuel resources offshore?

Barbados is promoting the development of renewable energy, but there are ongoing plans to explore for fossil fuel resources offshore to maximize foreign exchange gains from any exploited hydrocarbons.

Does Barbados need a BNEP?

The BNEP provides a basis for building on these successes while seeking to expand the use of these and other renewable energy technologies such as wind and biofuels. However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore.

Why is solar water heating so popular in Barbados?

Indeed, the success of the solar water heating industry is a source of pride for the country, the recent development of the local solar photovoltaic (PV) industry and the burgeoning electric vehicle market in Barbados are also encouraging.

To assist the Government of Barbados with achieving its 2030 vision of becoming 100% fossil fuel free (FFF) by 2030, the Government of Barbados, with the Ministry of Energy and Water Resources (MEWR), commissioned the development of this implementation plan (IP) to supplement the Barbados National Energy Policy (BNEP).

5 ???&#0183; The Barbados National Energy Policy (BNEP) 2019-2030 outlines Barbados' central vision regarding energy policy and planning and is designed to achieve the country's transformational goal of becoming a 100% renewable energy ...
