

Monique Dyers, founder and CEO of EmpowerSun Solutions, shares her experiences with being a finalist for the American-Made Solar Prize Round 7 and winner of the JEDI Contest.

*About the American-Made Solar Prize: The American-Made Solar Prize is a multi-million-dollar prize competition designed to energize U.S. solar innovation through a series of contests and the development of a diverse and powerful support network that leverages national laboratories, energy incubators, and other resources across the country.

EmpowerSun simplifies solar development for community landowners. Our proprietary technology automates the the technical feasibility part which currently costs tens of thousands of dollars so that we can provide it to landowners at almost no cost.

Ensight's subsidiary EmpowerSun Solutions is also garnering national recognition for developing a platform for underserved communities that provides customized solar planning resources and connects landowners with pre-certified project partners.
