

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Who installs the Orange Gallery Solar System?

We (The Orange Gallery) were the first official grid-tied system in Belize. Our system was installed by SESB and we have been powering our operations with free energy from the Sun for a few years now. We love it and are happy to recommend SESB!" Which solar system is right for me?

Does solar energy solutions have a warranty?

Thereafter, Solar Energy Solutions Belize will incorporate only those warranties of the manufacturer (s), which accompany the customer's product. Customer may be subject to pay shipping, duty, and import charges, as manufacturer (s) warranties may not cover the aforementioned fees. Can I connect my air conditioner to solar?

South-Facing Solar Panels: In Belize, located in the northern hemisphere, orienting solar panels towards the south is ideal to capture the most sunlight throughout the day. This orientation maximizes solar energy capture, which is particularly beneficial for off-grid solar systems. ? Benefits: Increased efficiency and energy yield, optimal for off-grid systems.

Energy Independence: Provides backup power during grid outages, ensuring a continuous power supply. Cost Savings: Reduces monthly electricity costs by offsetting power usage with solar production and utilizing stored energy during peak rate times. ? Sell Excess Power: Potential to earn credits or payments from BEL for excess energy sent back to the grid.
