What is bloombergnef tiering system?

7. Appeals 3 BloombergNEF has developed a tiering system for PV module products based on bankability, to create a transparent differentiation between the hundreds of manufacturers of solar modules on the market.

What is a Tier 1 company?

Updated quarterly, this ranking serves as a crucial tool for the financial sector to assess the level of trust in a given manufacturer. Among over 17,000 entities worldwide, only 2% are classified as Tier 1. Companies that achieve this status are considered the best and most stable in the market.

Are Tier 1 solar panels better than Tier 2 solar panels?

Tier 1 solar panels provide reliable warranties, ensuring that their 25-year performance guarantee will be honored. In contrast, while a Tier 2 company may offer warranty support, it is generally less dependable. In terms of quality, both tiers use similar production and assembly lines, but Tier 1 panels have a lower likelihood of defects.
