

Brazil needs a competitive and fair industrial policy for the solar PV sector, reducing the prices of components and equipments made in the country and creating more jobs, technology and ...

In recent years, solar panels have been exempted from import taxes in Brazil - a subsidy that was revoked this year, as a 10.8% tax was introduced. The exemption had helped to make solar equipment cheaper to source from China than domestically, and contributed to Brazil emerging as the second-largest importer of Chinese solar panels.

Chinese batteries and electric vehicles maker BYD Company Ltd (HKG:1211) announced on Wednesday it plans to open three new logistic centres in Brazil to increase its storage capacity for complete solar kits to 1.5 GW from 1 GW per year.

More than 85% of Brazil's electricity is now generated from renewable sources, and photovoltaics have become the second largest source of electricity generation in Brazil, ranking second only to hydropower and surpassing wind in terms of installed power capacity.

BRAZIL- BYD, the world's largest manufacturer of lithium batteries and 100% electric vehicles, has now installed 1 GWp solar panels in Brazil. BYD - a global leader in new energies - is immensely proud to have contributed significantly ...

Brazil needs a competitive and fair industrial policy for the solar PV sector, reducing the prices of components and equipments made in the country and creating more jobs, technology and innovation. Number of national manufacturers from the solar PV sector registered at the BNDES FINAME financing program: Source: ANEEL/ABSOLAR, 2021.

Microinverter-based solar and battery systems supplier Enphase Energy announced a significant increase in the applications of its IQ7+ and IQ7AM microinverters in Brazil's residential solar energy market.

BRAZIL- BYD, the world's largest manufacturer of lithium batteries and 100% electric vehicles, has now installed 1 GWp solar panels in Brazil. BYD - a global leader in new energies - is immensely proud to have contributed significantly to the south American country reaching the overall mark of 3 GWp installed (1 GWp in distributed ...
