Montserrat seeks funding beyond their current budget allocations in order to reach its 2030 renewable goals June 15, 2022 A report commissioned by Montserrat's Ministry of Communications, Works, Labour, and Energy (MCWLE) stated that for the island nation to meet its 2030 goal of 100% renewables, it would require funding beyond the current budget allocations.

The RADIUS FULL BRIM is an innovative new design that provides enhanced all-round protection thanks to the full brim peak. As one of the most stylish, lightest weight industrial safety helmet ranges on the market, RADIUS delivers outstanding impact protection and enhanced personal safety due to its unique "Crashbox inside" impact energy absorption system.

The awardwinning MS Brim is the first of its kind. The ship is purpose built for experiencing arctic waters with minimal impact on the environment. Built in recycled and recyclable aluminium, the ship is light and energy-efficient. The ship is hybrid-electric and thanks to the battery package it can sail up to 10 hours in 10 knots.

To reduce the use of fossil fuels and promote the use of green energy sources, Brim renovated the quay at Nor&#240;ur&#240;ur in 2018. The quay is a steel quay 120 m long and 20 m wide with a concrete surface containing a snow-melting system that uses the runoff water from Brim's fish processing plant.

brim with energy???????Reverso Context???-??????: ??Activities blessed with bountiful funds, projects with a secure supply of capital (though certainly a rarity), appear to brim with energy.
