Founded in 2008 GreenTech Solar is the oldest renewable energy company in the Cayman Islands and one of the first renewable energy providers in the Caribbean. A multi-award winning renewable energy design-build firm we are ...

Una baterí;a doméstica le permite almacenar energí;a solar y usarla cuando la necesite. Ahorre en sus facturas de la luz. Si hace un uso pleno de la energí;a solar,

Power your home and business with low-profile, durable solar panels from Heliene and Hyundai. Enjoy decades of clean energy generation with minimalist aesthetics. Upgrade your electrical infrastructure with the Micro-Air Easystart system .

The 5 MW Solar Farm is the first commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.

What type of renewable energy is best for the Cayman Islands? We have analysed many different energy source options including solar, wind, thermal, and waste-to-energy. Currently, solar is the most viable renewable energy option for Grand Cayman.

Solar panels can be installed on residential and commercial properties. The companies below are professional solar panel installers who design and install solar systems to meet the Cayman building code.

Modern solar panels are extremely durable and can last up to 25 years or more, when looked after properly. Energy Storage: By combining solar panels with energy storage solutions, such as batteries, you can store the excess electricity generated during the day and use it at night or during power outages, increasing your energy independence greatly.

Affordable Solar Cayman Ltd. offers solar power consulting and systems installations in Cayman Islands. We provide services to commercial and residential projects, including CORE program and off-grid solar systems, and solar heating solutions ...
