

Who is centiel?

Centiel is a Swiss-based technology innovation company with a highly experienced team of designers, who have developed the first three-phase modular fault-tolerant UPS system.

Why should you choose centiel scalable modular UPS?

Compared to a standalone UPS solutions or centralised bypass architectures, Centiel's scalable modular UPS have a lower total up-front investment cost, allowing you to grow your power protection capacity as your demand increases.

Why should you choose centiel?

Centiel provides innovative power solutions for a wide range of industries. Our service team is available 24 hours a day, 7 days a week, 365 days a year to ensure the availability of your UPS. Centiel impresses industry leaders with innovative UPS solutions at Data...

How many types of frames does centiel offer?

Centiel's flexible solution approach can customize a frame solution to satisfy specific needs. Centiel has provided 14 different types of frames with each particular number of modules designed for your needs. requirements? Contact us directly if you have any questions regarding our products. Maximum Protection with Competitive Price.

Thanks to Centiel's experience in module-design, the CumulusPower (TM) Intelligent Modules are equipped with three independent power converters, one static bypass, all hardware and all software (intelligence and monitoring) functions, making them fully independent and capable of safely isolating from the multi-module system whenever an ...

Explanations were provided to emphasize the importance of power protection, and it was evident that Centiel UPS, with its redundancy and "9 nines" (99.9999999%) availability, was the ideal choice for the critical load. Impact. Amid stiff competition from industry giants, Centiel emerged as the chosen provider for the project.

Centiel CumulusPower UPS. Centiel CumulusPower UPS. Uninterruptible Power Supply with the highest availability. CumulusPower(TM) is comprised of modules with power of 10, 20, 25, 50 and 60 kW, which can be accommodated in single racks with total power ranging from 20 to 600 kW. In addition, the power Racks can be extended to 3.6 MW by ...

Leading Uninterruptible Power Supply (UPS) manufacturer, CENTIEL, has confirmed it has a growing global installed base of its three-phase, 4th generation modular UPS system, CumulusPower. Launched for the first time in the UK just over a year ago, CumulusPower known for its "9 nines" system availability and low total cost of ownership, has now been ...

CumulusPower(TM) CumulusPower(TM) is a Swiss made 3-phase, online double-conversion and fully decentralized modular Uninterruptible Power Supply. From 10kW to 3.6MW CumulusPower(TM) provides the maximum flexibility to adapt to any application. By eliminating any single point of failure, Adding Distributed Active-redundant technology (DARA(TM)), preventing

While our Standalone UPS (Premium Tower) has the highest specification in its class, our Modular UPS is ...

Amid stiff competition from industry giants, Centiel emerged as the chosen provider for the project. They supplied one Cumulus Power frame equipped with various UPS modules, ensuring a vast autonomy time. Centiel's ability to deliver UPS units with a small footprint and ample capacity for expansion played a significant role in their selection.
