

How can AFRY support Chilean companies in sustainability and digital transformation?

Supporting Chilean companies in their sustainability and digital transformation business challenges is the focus of AFRY, which is implementing its growth strategy in Chile at the service of the process industries.

Is there an alternative to solar energy in Chile?

Chile has begun to explore an alternative. Both Cerro Dominador and the Alba Project are powered by so-called solar salts, extracted from the Atacama Desert, composed of potassium nitrate and sodium nitrate. When melted and kept in a liquid state, they allow energy to be stored.

How does Chile benefit from solar energy?

The country benefits from consistently strong winds in mountainous region of Patagonia and some of the world's highest levels of solar radiation in the Atacama Desert. This predictable supply of wind and solar energy has led the Chilean government to estimate that 13% of the world's green hydrogen will be produced within its borders.

How has Chile accelerated its energy transition?

Despite its historic ties to fossil fuels and copper mining, Chile in recent years has accelerated its energy transition through broad-based political support, private-public partnerships and innovative green technologies.

Why are solar panels important to Chile's green hydrogen industry?

Solar panels pictured in Chile's Atacama Desert are crucial to the country's green hydrogen industry. Chile has set an ambitious goal of converting 70% of its total energy consumption to renewables by 2030 and pledged to become carbon neutral by 2050.

Does Chile have a solar thermal tower?

Chile's Atacama desert is home to the only solar thermal tower in Latin America. The imposing 240-meter construction is one of the pillars of the country's ambitious green energy program that began in 2019 and aims to completely replace fossil fuels by 2040.

Siemens, Porsche partner on hydrogen-based fuel production in Chile Vow for southern Chile to become a global green hydrogen hub MAN Energy Solutions extends reach in hydrogen storage market. In the pilot phase, production is expected to start in 2022, with an output of around 130,000l of efuels.

Afri Invest is driving Africa's transition to clean, renewable energy by leveraging solar, geothermal, wind, and waste-to-energy projects. Solar Energy: Developing large-scale solar farms and off-grid solutions to expand access to affordable, clean electricity and reduce carbon emissions.. Geothermal Power: Harnessing Earth's heat through geothermal plants to provide reliable, low ...

AFRY's five divisions are: Infrastructure, Industrial & Digital Solutions, Process Industries, Energy and Management Consulting. Together, we offer engineering, design and advisory services across three main sectors: infrastructure, industry and ...

Ventas: Representa el ranking de la cifra de ventas del universo de empresas chilenas en trece escalones (1-13). Ejemplo: 1 representar&#237;a el grupo inferior, mientras 13 representar&#237;a el grupo superior. Capital: Cuando la cifra es positiva, representa el decil (1 al 10) del capital en el balance del universo de empresas chilenas. Ejemplo: 1 representar&#237;a el decil ...

Our services cover the full range of activities, from initial planning and project development, through design, tendering and project execution, to operation and maintenance, for all types of projects in the fields of industrial and digital ...
