

What is sunlight group energy storage systems (sunlight group)?

Sunlight Group Energy Storage Systems (Sunlight Group) a technology company specializing in innovative industrial mobility and energy storage systems, announces the expansion of its lithium-ion batteries production capacity up to 3.2GWh a year via the installation of four automatic assembly lines across company facilities in Greece and the USA.

How many facilities does sunlight have?

By Letta Kalamara More than 35 facilities (production plants, distribution and R&D centers) in 12 countries and three continents, employing more than 3,050 people reflect Sunlight's dynamism-a Greek company, targeting the Top in Lithium Energy Storage Systems and Industrial Batteries.

How does sunlight group increase lithium-ion battery capacity?

6 min read Sunlight Group increases lithium-ion battery capacity to 3.2GWh with automatic production lines from Manz AG. Increase in production capacity to meet growing global battery demand for top-quality lithium products.

Who buys sunlight equipment & machinery?

The equipment and machinery are procured from Manz AG, a leading multinational technology engineering company, and constitute a multi-million investment from Sunlight.
