Complete Energy Storage Systems for Puerto Rico. The Tigo solar + storage solution including inverter, battery, optimizers and more enable fast, flexible, dependable solar solutions for residential solar applications in Puerto Rico.

Construction has begun on a solar-plus-storage project on the Caribbean island of St. Kitts & Nevis, backed by Leclanché, Solrid and MPC Energy Solutions. The launch of the SOLEC power plant is nearly 18 months later than expected with the start of construction first announced back in December 2020, covered by Energy-Storage.news.

Centralized controller for managing energy production and consumption. Multi-VRF smart grid system based on CAN bus technology. The units can operate in extreme conditions: from -5ºC to +52ºC in cold and from -20ºC to +24ºC in heat. Other advantages: MPPT technology (Maximum Power Tracking Technology) allows 98% PV to be used automatically.
