

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

What is a DIY+ solar kit?

Our DIY+Solar Kits give you full control to install and customize your own solar system. Perfect for hands-on projects, you'll save on installation costs while enjoying flexibility and expert support. Build it, monitor it, and expand it on your terms. Ideal for those wanting a hassle-free, professional solar solution.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.

Why should I buy a DIY+ solar kit?

Take charge of your solar install and save thousands. Easily monitor and maintain your system with confidence. Lifetime customer support + guides, videos and help. Our DIY+ Solar Kits give you full control to install and customize your own solar system.
