

When will smart battery recycling containers be available in Canada?

The new smart battery recycling containers will be strategically placed in public locations throughout Canada starting in February, providing greater accessibility for individuals to collect, protect, and drop off their household batteries responsibly and safely.

What is Call2Recycle's new smart battery recycling container?

Toronto, ON, February 12, 2024 - Call2Recycle, Canada's leading battery collection and recycling program, today announced the launch of its innovative smart battery recycling container under its new consumer brand, Recycle Your Batteries, Canada!.

Are smart battery recycling containers safe?

Call2Recycle's smart containers surpass the capabilities of traditional battery recycling containers in terms of safety and environmental impact throughout the battery collection process.

What does 'Recycle Your Batteries, Canada!' mean?

The new "Recycle Your Batteries, Canada!" logo and graphics are employed on the devices to improve public education and battery recycling awareness. The organization says this will ultimately lead to an increase in critical metals recovered from batteries and contribute to Canada's circular economy.

How many liters can a battery container hold?

Each container has a volumetric capacity of 52 liters. The containers stand just over 2 feet high and can collect up to 150 kilograms (around 330 pounds) of consumer batteries before they need to be emptied.

Where can I find a battery recycling container?

Consumers can find the battery recycling containers in select retail stores, pharmacies, city halls, and libraries in all provinces.

TORONTO -- Call2Recycle, a battery collection and recycling program, announced the launch of its smart battery recycling container under its new consumer brand, "Recycle Your Batteries, Canada!"

It doesn't need to be complicated. Simply re-purpose old tomato sauce or peanut butter jars, or even used take-out containers to store your used batteries. Label your home-made battery container clearly and place it in an easily accessible area in your home. But remember, keep your battery container out of reach of small children under five.
