

Convergent energy power Saint Pierre and Miquelon

Who is convergent energy & power?

About Convergent Energy and Power Convergent Energy and Power (Convergent) is a leading provider of energy storage solutions in North America. Convergent has over a decade of experience financing and managing all aspects of the energy storage development cycle to help customers reduce electricity costs and increase reliability.

What does convergent do?

Convergent finances and manages all aspects of on-site renewable energy development and operations to significantly and sustainably lower electricity bills for the industrial sector, electric cooperatives, and municipal utilities, and investor owned utilities.

How can convergent help with energy storage development?

Convergent has over a decade of experience financing and managing all aspects of the energy storage development cycle to help customers reduce electricity costs and increase reliability. The company's commercial, industrial, and utility-scale assets can yield seven-figure savings while advancing the clean energy transition.

What is convergent energy storage & solar?

Powered by results. Convergent has over \$1bn invested in or committed to energy storage and solar systems across North America. Energy storage systems (with or without solar PV) allow electricity to be stored--and then discharged--at the most strategic times.

Why did ECP buy convergent?

The market now fully agrees with our founding premise. In 2019, the energy and infrastructure fund ECP purchased Convergent, providing us with the financial resources to continue setting energy storage sector milestones.

Ribbon-cutting for the 12MW/57MWh project. Image: Orange & Rockland Utilities via Twitter. Convergent Energy and Power has brought online a 12MW/57MWh battery storage project for New York utility Orange and Rockland Utilities (O&R) which will reduce the need for more expensive network upgrades.

The completed 5MW / 10MWh project in Collingwood, Ontario, Canada. Image: PRNewsfoto/Convergent Energy + Power. Convergent Energy + Power has commissioned an industrial battery energy storage system (BESS) project in Ontario which could save the facility owner CA\$450,000 (US\$356,000) per megawatt on power costs during summer.
