

How can Croatia achieve a low-carbon economy?

Croatia wants to cut its CO<sub>2</sub> emissions by 45% by 2030 and to abandon coal by 2033. But the transition to a low-carbon economy won't be easy, requiring major investments in new energy infrastructure and increased renewable energy resources. To achieve its goal, Croatia set up a 2030 National Energy and Climate Plan.

What can we expect from EU funding in Croatia?

The EU funding and the Croatian government initiatives will likely result in an increased demand for innovative, reliable, and cost-effective renewable energy solutions in Croatia. We can expect more solar and geothermal power plants, and more production facilities installed by consumers for their own consumption and trade.

Can energy projects make Croatia greener?

Several energy projects aim to make Croatia greener, ensure a secure energy supply, and improve lives in Zagreb. Just eight kilometres from the Kastel Benkovic, a medieval castle, the village of Korlat produces one of the finest red wines in both Croatia and Europe.

What is the energy transition in Croatia?

The Ministry of Economy and Sustainable Development has been established, putting environmental protection, energy, and climate change under one roof with the economy, entrepreneurship, and trade. The Office of the President of Croatia has established the Energy Transition Council of independent energy experts eager to push for changes.

How much electricity does Croatia produce a year?

The power plant produces around 170 gigawatt hours annually. That's about 1% of Croatia's annual electricity consumption and energy for more than 50 000 households. Headquartered in Zagreb, Hrvatska Elektroprivreda d.d. (HEP) is behind the construction and operation of the wind farm.

Should Croatia invest in solar & wind power?

With its long Adriatic coastline, Croatia is eyeing rapid development of solar and wind power, says Drazen Jaksic, director of Zagreb's Hrvoje Pozar Energy Institute. There is strong investor interest in backing new projects that would greatly increase Croatia's current clean power generating capacity of just over 1GW, he added.

At Absolute Energy, we envision a world powered by innovative and sustainable energy solutions. ...
