Our expert and consumer reviews of the leading brands of residential solar panels show the best solar panels to suit your home in 2024 On this page: Best by expert review Best by consumer review Most efficient Best value US panel manufacturers Types of manufacturers

The type of solar panel you need depends on the type of system you want to install. For a traditional rooftop solar panel system, you'll usually want monocrystalline panels due to their high efficiency. If you have a big roof with a lot of space, you might choose polycrystalline panels to save money upfront. Want to DIY a portable solar setup on an RV or boat?

Overall, finding the best solar panel brand comes down to comparing their efficiency, temperature coefficient, and warranty. Currently, SunPower, LG, REC, and Panasonic make the best solar panels due to their high efficiencies, competitive pricing, and 25-year warranty.

Our Methodology: How we review the best solar panels in Australia. Primarily, this analysis is focused on residential, mono-facial solar panel options, specifically examining each brand's best-performing 60-cell / 120-half-cell solar panel. However, to keep things simple, we have narrowed it down to four of the most important criteria when ...
