

Here at bp, we are committed to transforming our business so that we can change energy for the better. Join us in business, digital, engineering, science or trading, and play a vital role in delivering more sustainable energy for all. A better, brighter future starts here ...

After years of relying on coal for energy, for the first time, in both the UK and the US, more energy was generated from zero carbon sources than fossil fuels. By using renewables to power our energy, we're well on our way to meeting our 2050 UK target for net zero total emissions. How is the UK switching to more clean, renewable energy?

Impact & Sustainability. We are making a positive impact on the world around us and people's lives through our products and our operations. By creating innovative electronics and focusing on five target markets - Renewable Energy, Transport, Medical, Security and Industrial & Connectivity, we play an essential part in contributing to meeting the UN Sustainable ...
