

What is Duyunov's Motors?

"Duyunov's motors" is a project aimed at commercialization of the unique "Slavyanka" combined winding technology. The technology allows the team of engineer Dmitriy A. Duyunov to design new generation electric motors used in electric transport, industry, agriculture, military sector, aviation, household appliances, medicine and other fields.

What is hub motor based on Duyunov's technology?

Please try again later. Hub motor based on Duyunov's technology is the first in the world induction electric motor with "Slavyanka"-type winding that has a unique combination of capacity and power consumption. The new technology is based on the developed by us innovative combined winding technology for motors (star and delta combined in parallel).

Who invests in Duyunov's Motors?

Investments in the project "Duyunov's motors" are attracted by crowd investing, which is otherwise also known as collective funding. This means that funds for the project implementation come from small and medium-scale investors. Today any person from any country can become the project investor and get a share in the innovative business.

Who can invest in solar group?

Any person from any place in the world can invest. The international company SOLARGROUP is organizing the project funding. More than 477,000 people from 194 countries. That's how many participants have been attracted to the project by SOLARGROUP. Russia. Rostov-on-Don Russia. Rostov-on-Don registration!
