

Why should you choose EcoSmart solution partner homes?

eco-friendly solution. EcoSmart Solution partner homes are zero energy capable. You're ready for a home that lives, works, and lasts better. A superior, sustainable solution is available today.

Who is EcoSmart?

EcoSmart is an affiliate of global investment leader Taurus Investment Holdings LLC, with a strategic partnership through Shell New Energies to create benefits for our Homeowners, Developers, and Home Builders through a revolutionary solution for creating the sustainable communities of tomorrow.

What is EcoSmart & how does it work?

By transforming energy infrastructure investment into a high-value energy service and offering second to none technology; EcoSmart delivers a streamlined platform through our network of strategic partnerships in technology, consumer brands, and more, for builders to craft affordable, net zero energy capable homes.

Is an EcoSmart home energy efficient?

An EcoSmart home has a HERS rating of 25 or below -- making it one of the most energy efficient homes in the country. Why Your Next Home Should Be EcoSmart. In today's housing market, energy adaptability and performance directly correlate with dollar savings.

Why do you need a EcoSmart certification?

The ECOsmart certification adds credibility to your green initiatives and identifies any gaps to prioritise improvements...making sure you're on the right track. At ECOsmart, we are revolutionising sustainability management for groups and multi-site operations with our cutting-edge solutions, designed to simplify and enhance your efforts through:

How can EcoSmart support local food suppliers?

Offering healthy options and having environmentally friendly products, plus adopting a purchasing plan that favours nearby growers and food providers is a great way to support local suppliers whilst also reducing carbon emissions associated with transportation. Did You Know? ECOsmart Platinum Venue donates surplus foods to local food banks

The heart of the EcoSmart solution is the GeoGrid(TM), a geothermal district system that uses the earth below our feet to heat and cool the home. Installed during the earliest phases of development, the GeoGrid(TM) is a community-wide utility, similar to water, sewer, and electric lines.
