Wider Access. As part of NGE's Wider Access initiative, EDL communications are now supported via API for participants with a single site less than 100MW or a portfolio less than 300MW. Above these thresholds requires fixed line EDL communications. This method of access is aimed at Virtual Lead Parties (VLPs) and smaller participants.

**Enegen Power Systems - Partners** Enegen has developed a broad partner network to provide complimentary services to its clients. We believe that adding value to clients experiences requires vendors and service providers to cooperate and familiarity across teams dramatically improves the implementation experience.

Dave has been involved with the power industry since 1996. Over the past twenty-five years, Dave has successfully managed organisations involved in the sales, implementation and support of commercial energy IT systems throughout the UK and Europe.
