Ivory Coast is aiming for an energy mix in which 42% will come from renewable energy by 2030. To help it achieve this goal, EDF signed a concession contract with the Ivorian government in December 2019 via BIOVEA Energie (owned with its partners Meridiam and Biokala, a subsidiary of the SIFCA group).

3 ???&#0183; With a capacity of 400 kW, this project will help the company reduce its CO2 emissions by approximately 210 tons per year and will cover more than 30% of its energy needs. Through its participation in SIREXE, EDF reaffirms its ...

Aphelion Energy was founded by Andrew Carter, who has consulted as a mini-grid specialist for clients including the African Development Bank and UNIDO. Aphelion's team in C&#244;te d'Ivoire includes experienced local solar and energy engineers and technicians. The company has installed solar mini-grids in 7 villages and over 100 individual solar ...

Ivory Coast is making big strides in its energy sector, focusing on renewable sources and improving access to electricity. The country aims to boost its energy capacity significantly in the coming years, with a strong emphasis on ...

3 ???&#0183; With a capacity of 400 kW, this project will help the company reduce its CO2 emissions by approximately 210 tons per year and will cover more than 30% of its energy needs. Through its participation in SIREXE, EDF reaffirms its commitment to the energy transition and sustainable development in C&#244;te d'Ivoire and across the African continent.

Ivory Coast is the main electricity producer in the WAEMU zone. It is engaged in an ambitious infrastructure programme to become the energy hub of ECOWAS (Economic Community of West African States). This includes Ghana and ...

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding (MoU) with renewable energy company Kong Solaire earlier this month to construct a 50 MW solar power plant in the Tchologo region.

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of

this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding ...

As a long-standing partner of the electricity sector in Ivory Coast, EDF created EDF-CI, its Ivorian subsidiary, in 2016 with the ambition of improving access to electricity and enabling its partners to meet the increasing energy needs of communities against a background of economic and demographic growth.
