

Who is enerlux power SRL?

Enerlux Power Srl designs and manufactures a complete range of products and power factor correction systems both for Medium and High Voltage: discover our company!

Can enerlux power Srl manufacture capacitors?

Enerlux Power Srl can manufacture, additionally to the capacitors showed on the catalogue, many other solutions and characteristics based on the specific request from the customer. Find out our capacitors and choose the Italian quality of Enerlux!

How many bushings does enerlux power SRL have?

This unit has three bushings, one of which is the common terminal while the others two capacitive tapings. Enerlux Power Srl can manufacture, additionally to the capacitors showed on the catalogue, many other solutions and characteristics based on the specific request from the customer.

power factor correction of engines; transformer power factor correction; loss reduction. Capacitors are manufactured and tested in compliance with the national CEI and international IEC standards. The max rated voltage is 17,5 kV; for higher voltages, single-phase capacitors with a star connection are used.
