

What is enersol lithium?

The enerSol Lithium storage solution has been specifically designed to meet your energy storage needs within the Residential, Small Scale Commercial and Telecoms industries with proven compatibility with most major inverter brands. Its modular design is perfect for module-based systems for backup power in both on-and-off-grid applications.

Who is enersol?

enerSol stands at the forefront of the solar energy revolution, driven by a mission to make solar power accessible to everyone. As a renowned technology provider, we offer seamless and sustainable solutions to empower individuals and businesses to embrace energy independence.

What are enersol high voltage inverters?

enerSol High Voltage inverters offer increased efficiency, parallel capability, high-speed MPPT algorithm, and decreased installation cost and time. enerSol's cutting-edge charge controllers are meticulously engineered to ensure that your system operates at its highest efficiency possible.

Who makes our lithium batteries?

Our lithium batteries are powered by Leoch International, a leading manufacturer of top-quality batteries and energy storage systems worldwide. These in-house manufactured batteries provide high efficiency and cost-effectiveness for various applications like solar and telecoms.

What makes enersol unique?

enerSol's uniqueness lies in a decade of continuous interactions with the African market, driven by a commitment to constant improvement. We firmly believe that valuable insights from our customers, combined with collaborations with top installers and manufacturers enable us to produce the best products in the industry.

Why should you choose enersol?

enerSol's cutting-edge charge controllers are meticulously engineered to ensure that your system operates at its highest efficiency possible. Our devices are equipped with a built-in fail-safe mechanism that provides protection against any energy surges or potential hazards that your system may encounter.

10.2kWh Voltage: 51v 20 Year Design Life Parallel up to 15 units Powerful 150A Discharge Interactive LCD Display for instant device information Intelligent BMS communicates with major inverter brands 6000 cycles

@ 80% DoD Weight: 85Kgs

The Intelligent Battery Management System (BMS) provides a host of protection features. ... We have a 5 year warranty for our lithium batteries, longer than the average solar storage system, with a full active warranty centre in South Africa. ... Terms & Conditions; Signup for our mailing list -> sales@enersol.africa; support@enersol.africa ...

Introducing the Enersol 5.12kW WM Battery - Your Lithium Powerhouse. Key Features: Exceptional Depth of Discharge: Unlike traditional batteries with approximately 85% Depth of Discharge (DoD), the Enersol 5.12kW WM ...

The Enersol WM 51-100Ah Lithium Ion Battery is a high-performance energy storage solution designed for a variety of applications, offering intelligent management features, robust protection mechanisms, and exceptional cycle life. With a nominal voltage of 51.2V and a capacity of 100Ah, this battery is ideal for solar power systems, backup power, and energy storage solutions ...

Key details include: 1) It has a 100Ah capacity at 51.2V nominal voltage and can be used in parallel configurations of up to 15 units. 2) The battery has over 6,000 cycle life at 80% depth of discharge and features an intelligent battery ...

This document summarizes the specifications of the Lithium 51-100 battery from EnerSol. Key details include: 1) It has a 100Ah capacity at 51.2V nominal voltage and can be used in parallel configurations of up to 15 units. 2) The battery has over 6,000 cycle life at 80% depth of discharge and features an intelligent battery management system for monitoring and protection. 3) ...

The enerSol Lithium 51 - 200 storage solution has been specifically designed to meet your energy storage needs within the Residential, Small Scale Commercial and Telecoms industries with proven compatibility with most major inverter brands. Its modular design is perfect for module-based systems for backup power in both on-and-off-grid applications.

The AGM G+ is a new battery that combines glass mat and gel technologies for exceptional performance. It's perfect for backup power, with 3600 guaranteed cycles at 20% discharge. ... The Greenrich Wall Mount 10.2kWh 48V Lithium-Iron Battery is an efficient and reliable energy storage solution for a variety of applications. It offers superior performance and is designed for long term use and reliability. The battery is rated for up to 1.5C discharge rate, providing a high power output for even the most demanding applications.

The enerSol Lithium storage solution has been specifically designed to meet your energy storage needs within

the Residential, Small Scale Commercial and Telecoms industries with proven compatibility with most major inverter brands. ...

The installation of Enersol Solar Panels may be performed on a low pitched (less than 12:12 or 45 degrees angle) shingle and some types of metal roofs. If an installation varies from these types, 1 ins Enersol should be advised and asked for special
