

Does EnerSys sell batteries?

EnerSys also manufactures and sells related DC power products including chargers, electronic power equipment and a wide variety of battery accessories. Their battery products cover a broad range of sizes, configurations and electrical capabilities. EnerSys, in 2000, acquired Yuasa's industrial division. The Hawker Group merged with EnerSys in 2002.

Who is EnerSys?

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide.

What does EnerSys do?

EnerSys is a stored energy systems and technology provider for industrial applications. The company manufactures reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure systems.

What are the different types of EnerSys powersafe batteries?

Standby Power Batteries | EnerSys Batteries | EnerSys PowerSafe V Front Terminal Batteries VRLA | EnerSys PowerSafe 12V155FS EnerSys PowerSafe 12V155FS range of valve regulated lead acid batteries have been designed specifically for use in applications which demand the highest levels of security and reliability.

What is a Genesis NP battery?

With high energy density, excellent performance in either float or cyclic applications, and long service life, Genesis NP batteries power security systems, emergency lighting and more in a space efficient footprint. Compact, quick and simple to install, Genesis NP batteries require low maintenance and never need watering.

What industries did EnerSys acquire?

These industries include medical, aerospace and defense systems. With the Alpha acquisition, EnerSys expanded its portfolio to become a fully integrated DC power and energy storage system and technology provider for broadband, telecom and energy storage systems.

August 2, 2024: International battery company, EnerSys, announced on July 26 that it had closed the acquisition of Bren-Tronics, a manufacturer of portable power products for defense customers, including small and large format lithium batteries. EnerSys CEO David Shaffer had confirmed in early May that the acquisition was going to go ahead.

18 November 2024 EnerSys®; to Showcase Advanced Battery Management at 2024 North American

ISSA Show EnerSys will showcase its premium portfolio of floor care power solutions in booth 3064 at ISSA Show North America 2024, including the company's recently launched iQ Mini(TM) battery monitoring device, along with their maintenance-free NexSys® ...

OSI Batteries is very proud to be an Authorized Distributor and Value Add Center for EnerSys. The PowerSafe(TM) SBS-170F battery utilizes unique and proven technology to provide superior performance with an extended service life in ...

designed for high-volume applications, these maintenance-free batteries are engineered to boost throughput and accelerate productivity like never before. nexsys® tppl atp batteries deliver up to a 50% increase in daily energy throughput compared to standard tppl batteries and up to 200% over traditional lead acid. request a quote

EnerSys® ABSL Battery Successfully Launched On NASA's Europa Clipper Spacecraft READING, Pa., Oct. 31, 2024 (BUSINESS WIRE) - EnerSys (NYSE: ENS), the global leader in stored energy solutions for industrial applications, is proud to announce that its ABSL(TM) lithium-ion space battery was successfully launched onboard NASA's Europa Clipper spacecraft.

HAWKER ® BATTERIES. Hawker ® batteries from EnerSys ® are the premier combat and tactical vehicle batteries, providing a distinct advantage to our fighting forces. Manufactured with proprietary Thin Plate Pure Lead (TPPL) technology, Hawker ® batteries provide virtually maintenance-free operation, longer life, deep cycle capability, vibration resistance, higher ...

EnerSys PowerSafe 12V155FS range of valve regulated lead acid batteries have been designed specifically for use in applications which demand the highest levels of security and reliability. They have a long service life and an excellent ...

DataSafe NPX-35FR flame retardant valve regulated lead-acid batteries are designed for high rate discharge applications. These batteries are used primarily where high wattage is required for a short duration. With 50% more wattage available and a 30% reduction in size over conventional batteries, DataSafe NPX batteries offer a superior value, especially in UPS applications.

developed for fast and opportunity charging, nexsys® tppl batteries provide maintenance-free power for light to medium applications. using enersys"® advanced thin plate pure lead (tppl) technology, nexsys tppl batteries are designed to cut downtime and operating costs, as well as eliminate the need for battery watering and changing. request a ...
