

What does EnerSys do?

EnerSys is a stored energy systems and technology provider for industrial applications. The company manufactures reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure systems.

Who is EnerSys?

We complement our extensive line of motive power, reserve power, aerospace/defense and specialty batteries with a full range of integrated services and systems. With sales and service locations throughout the world, and over 100 years of battery experience, EnerSys is the Power/Full Solution for stored DC power products.

What types of batteries does EnerSys sell?

EnerSys is the global leader in batteries, chargers and accessories for motive, reserve, aerospace and defense applications. Industrial batteries. Forklift batteries.

Who is the CEO of EnerSys?

The president and CEO as of 2024 is David M. Shaffer. EnerSys produces reserve power batteries, marketed and sold principally under the Alpha, PowerSafe, DataSafe, Hawker, Genesis, ODYSSEY and CYCLON brands.

What industries did EnerSys acquire?

These industries include medical, aerospace and defense systems. With the Alpha acquisition, EnerSys expanded its portfolio to become a fully integrated DC power and energy storage system and technology provider for broadband, telecom and energy storage systems.

Where are EnerSys batteries made?

Last week, EnerSys welcomed the Manufacturing Leadership Council for an inside look at our Richmond, KY plant, where we assemble and distribute our complete range of flooded lead acid, lithium-ion, and thin plate pure lead (TPPL) batteries and chargers across North America.

EnerSys is one of the world's leading manufacturers of industrial batteries. Our development is future-focused. All of our products are manufactured by the latest production methods. We use our experience, skills and knowledge to advise, plan, set up the project and finally deliver the complete energy system.

EnerSys is a stored energy systems and technology provider for industrial applications. The company manufactures reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure systems.

EnerSys is the world's largest industrial battery manufacturer with manufacturing and assembly plants located around the world, over 7,000 employees, and a worldwide sales and distribution network. A

leader in both valve-regulated and flooded lead acid battery technologies, EnerSys is a major supplier to ...

A leader in both valve-regulated and flooded lead acid battery technologies, EnerSys is a major supplier to telecommunications, UPS, data processing, electronic, and material handling markets across the globe. Have a question about batteries? Get in touch with our battery specialist: Tim Park, Product Manager Batteries, EMEA. tim.parker@avnet.com ...
