

Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO₄ battery packs go beyond long-lasting power and durability--they're built with a commitment to innovation in our American battery factory.

Where can I find more information about Dragonfly energy?

For more information about Dragonfly Energy, visit DragonflyEnergy.com. Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) is a comprehensive lithium battery technology company, specializing in cell manufacturing, battery pack assembly, and full system integration.

How does dragonfly energy work?

The dry electrode battery manufacturing process Dragonfly Energy employs uses a patented spray coating technology to adhere the anode and cathode electrodes, eliminating the need for large, energy-intensive equipment such as slurry coaters, conveyor dryers, and NMP processing equipment.

Is Dragonfly Energy's patented dry electrode battery manufacturing process sustainable?

Results of a Cost & Sustainability Assessment, conducted by Sphere Energy, concludes Dragonfly Energy's patented dry electrode battery manufacturing process is easily scalable, more cost-effective, and more sustainable than the state-of-the-art technology currently available in the market.

Can dragonfly energy transform the lithium-ion battery industry?

"Through extensive research and development, we believe Dragonfly Energy is positioned to deliver a transformative cell manufacturing technology, which has the potential to fundamentally reshape the lithium-ion battery industry's approach to viable energy storage solutions.

Does dragonfly energy make PFAS-free batteries?

RENO, Nev., May 09, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in green energy storage, has made a significant breakthrough in battery manufacturing with the successful production of PFAS-free electrodes in lithium battery cells.

1 ??· RENO, Nev., Dec. 19, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in energy storage ...

RENO, Nev., Nov. 19, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. ("Dragonfly Energy" or the "Company") (Nasdaq: DFLI), maker of Battle Born Batteries ® and an industry leader in

energy storage, today, announced today that it will effect a 1-for-9 reverse stock split of its outstanding common stock. This will be effective for trading purposes as of the ...

Agreement to allow for expansion of Battle Born Batteries®; products into new markets. Dragonfly Energy signs a \$30 million agreement to license its popular lithium-ion battery brand, Battle Born Batteries®, to Stryten Energy for distribution globally; Stryten Energy will have exclusive rights to market and distribute Battle Born Batteries for military, automotive, marine, ...

RENO, Nev., April 09, 2024 (GLOBE NEWSWIRE) - Dragonfly Energy Holdings Corp. ("Dragonfly Energy" or the "Company") (Nasdaq: DFLI), maker of Battle Born Batteries®; and an industry leader in energy storage, today announced that the Company will release its financial results for the fourth quarter and year ended December 31, 2023 after market close on Monday, April 15, ...

Whitepapers Access insightful resources on energy storage systems. Case Studies Real-world applications powered by our innovative solutions. Ethiopia: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Dragonfly Energy managers discuss battery data in the RD lab. Results of a Cost Sustainability Assessment, conducted by Sphere Energy, concludes Dragonfly Energy's patented dry electrode battery manufacturing process is easily scalable, more cost-effective, and more sustainable than the state-of-the-art technology currently available in the market.

RENO, Nev., May 29, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. ("Dragonfly Energy" or the "Company") (Nasdaq: DFLI), maker of Battle Born Batteries®; and an industry leader in energy storage, today announced that the Company is scheduled to participate in the following events during June 2024: Rho Motion Live: Europe, June 5-6, 2024 - Paris, ...

RENO, NEVADA (November 25, 2024) - Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in energy storage Read More®; Dragonfly Energy Publishes 2023/2024 ESG Report Highlighting Commitment to a Sustainable Future and Diversity in its U.S. Workforce

Dragonfly Energy has continued its expansion into the trucking industry, taking new orders for both its Battle Born®; All-Electric APUs and Battle Born®; Liftgate Power Systems from fleet operators since the beginning of 2024. The Company is announcing certification of its energy storage products for use in oil gas operations in North America, and identification of first ...

RENO, Nev., May 08, 2024 (GLOBE NEWSWIRE) - Dragonfly Energy Holdings Corp . (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in green energy storage and maker of Battle Born Batteries®;, received the Spirit of Nevada award at the annual Nevada Business Awards presented by Nevada Business magazine. The Nevada Business Awards ...

RENO, Nev., Nov. 19, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. ("Dragonfly Energy" or the "Company") (Nasdaq: DFLI), maker of Battle Born Batteries ®; and an industry leader in energy storage, today, announced ...

Dragonfly Energy's LiFePO₄ battery packs are engineered to offer unparalleled power and versatility to suit the diverse needs of various deep cycle applications. They can be wired in series for 12V, 24V, 36V, and 48V systems, or wired in parallel for expanded power needs. Designed as drop-in replacements for standard lead-acid battery form ...

Agreement to allow for expansion of Battle Born Batteries®; products into new markets Dragonfly Energy signs a \$30 million agreement to license its popular lithium-ion battery brand, Battle Born Batteries®;, to Stryten Energy for distribution globally Stryten Energy will have exclusive rights to market and distribute Battle Born Batteries for military, automotive, marine, ...
