Flow batteries, as described in the paper, are particularly useful for long-duration and large-scale storage applications with their high performance and durability. Flow batteries are a sustainable energy storage solution essential for the development of renewables and key to providing opportunities for the creation of green jobs in Europe.

The European Union has resolved a glaring omission in the design of its Battery Passport, the forthcoming directive on sustainability, labelling and performance, according to Flow Batteries Europe.

Flow Batteries Europe sent a statement to the media, including this site, acknowledging that this has been amended. Flow batteries are now included in the scope of the Passport's main sustainability provisions, such as ...

The Battery Passport initiative is part of a raft of upcoming legislation to be voted on in the EU parliament. Image: Flow Batteries Europe. Trade body Flow Batteries Europe (FBE) has written to EU legislators imploring them to include its members' products in the scope of upcoming Battery Passport regulations.
