

What does EU 2015/1094 mean for refrigerated storage cabinets?

Commission Delegated Regulation (EU) 2015/1094 of 5 May 2015 supplementing Directive 2010/30/EU of the European Parliament and of the Council with regard to the energy labelling of professional refrigerated storage cabinets. Directive 2009/125/EC establishes a framework to set ecodesign requirements for energy-related products.

Why is energy storage important in the EU?

It can also facilitate the electrification of different economic sectors, notably buildings and transport. The main energy storage method in the EU is by far 'pumped hydro' storage, but battery storage projects are rising. A variety of new technologies to store energy are also rapidly developing and becoming increasingly market-competitive.

Will Europe achieve 187 GW of storage capacity by 2030?

High figures like this will be needed consistently over the next five years to ensure the EU achieves the mammoth 187 GW of storage capacity needed by 2030. Notable European markets include the UK, Italy, Germany, Poland and the Nordics, among others.

Can energy storage help the EU decarbonise its energy supply?

A number of EU countries have also teamed up for 'Important Projects of Common European Interest' on batteries research and innovation. Energy storage can help increase the EU's security of supply and support decarbonisation.

Why should EU countries consider the 'consumer-producer' role of energy storage?

It addresses the most important issues contributing to the broader deployment of energy storage. EU countries should consider the double 'consumer-producer' role of storage by applying the EU electricity regulatory framework and by removing barriers, including avoiding double taxation and facilitating smooth permitting procedures.

What is the energy storage database?

The database includes three different approaches: Energy storage technologies: All existing energy storage technologies with their characteristics. Front of the meter facilities: List of all energy storage facilities in the EU-28, operational or in project, that are connected to the generation and the transmission grid with their characteristics.

A portable electric radiator needs to be light, so we ruled out all of the oil-filled storage heaters from the start, even the more energy efficient ones. Of the remaining oil-free portable heaters, the Dimplex 1.5kW was the most suitable.

Our stylish and practical ranges of custom made Radiator Covers & cabinets breathe warmth into your home. It's the perfect finishing touch. Radiator Cabinets UK crafts traditional Radiator ...

Energy-efficient, protect children from getting burnt by the hot radiator surface. Improves aesthetic appearance, blocks heat and moisture in case the old radiator malfunctions ... Radiator cover ...

DuraTherm®; Radiator Cover Black Painted MDF Cabinet Horizontal Slat Storage Drawers & Shelf, Radiator Cabinets for Office Hallway Living Room Bedroom, Medium (H: 111.5cm / W: ...
