

Can Eurowind energy double its PV capacity in Portugal?

With a PV park under operation (Triana) and a large portfolio of small generation PV plants ('UPPs') under construction, these new projects may allow Eurowind Energy to almost double its total installed PV capacity in Portugal, bringing close to 120 MW of green electricity.

What is Eurowind energy a/s doing in Portugal?

Danish wind and solar park operator Eurowind Energy A/S announced today it has started the construction of its 22-MWp photovoltaic (PV) project in Portugal. Solar farm in Portugal. Author: Hugo Cadavez.

Where is Eurowind energy located?

Eurowind Energy is excited to have signed a Shares Purchase Agreement in August for the acquisition of different projects totaling 11 PV projects of 5MW AC each. Most of the projects are aggregated in clusters of three (15MW each), and all of them are located in the Aveiro district, in the Center of Portugal.

Who is Eurowind energy a/s?

Eurowind Energy A/S is a Danish company that specialises in developing, building and operating renewable energy parks. The group has more than 600 employees and has activities within wind, solar, hydrogen, power to X, biogas and battery solutions spread out in 17 markets in Europe and the USA.

What if Eurowind Energy acquired a project?

Under the terms of the agreement, the acquisitions will only materialize for projects which reach the ready-to-build stage. Should all projects be acquired and built, the overall production would provide approximately 36,100 households with green electricity. The 11 projects would take Eurowind Energy's green energy portfolio to close to 120 MW.

How many GW does Eurowind energy have?

Furthermore, as of July 1st, 2024, our development portfolio includes more than 53 GW. At Eurowind Energy A/S, we believe that the future of energy supply is local, circular, and sustainable.

Eurowind Energy A/S é uma empresa dinamarquesa especializada no desenvolvimento, construção e operação de parques de energia renovável. A nossa atividade abrange soluções ...
