

How will battery storage impact the energy system in Mexico?

As Mexico establishes itself as a regional renewable energy hub, we expect battery storage to become an essential means for enhancing the flexibility of its grid system to provide more versatile energy delivery across the country.

Does Mexico have onsite solar with energy storage?

Contact us to learn more about onsite solar with energy storage in Mexico. As Mexico establishes itself as a regional renewable energy hub, we expect battery storage to become an essential means for enhancing the flexibility of its grid system.

When will Leoch's new battery manufacturing plant in Mexico be fully operational?

LEOCH's Chairman, Dong Li, announces new battery manufacturing plant in Mexico will be fully operational by year's end. September 21, 2023: LEOCH's new battery assembly plant in Mexico will be operational by the end of this year, owner and chairman Dong Li has told Batteries International.

Will Mexico be key to the development of lithium batteries?

We believe Mexico will be key to the future of the development of lithium batteries as home to the world's largest single lithium field - "La Ventana" in Sonora. The country likely holds around 17 other deposits, across Baja California Sur, Coahuila, San Luis Potosí, Sonora and Zacatecas, that are largely undeveloped.
