

Federal government solar panel grant Grenada

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is the Solar for all grant competition?

On April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

Does EPA fund solar for all projects?

EPA will not fund individual projects through Solar for All. A Solar for All program is a program that ensures low-income households have access to residential rooftop and residential-serving community solar energy, often through providing financial support and other incentives.

Can solar for all grantees fund residential solar projects?

Solar for All grantees can fund both residential rooftop solar projects and residential-serving community solar projects so long as the projects serve households. These projects can be sited on buildings in which people live but do not own or rent so long as the project serves households.

Can solar for all grant funds be used for financial assistance?

No, Solar for All grant funds must be used for financial assistance and technical assistance to enable low-income and disadvantaged communities to deploy and benefit from rooftop residential solar and residential-serving community solar as defined in Section I.D: Competition Terminology of the Notice of Funding Opportunity.

Can a state compete for a solar for all grant?

No, only states, territories, municipalities, Tribal governments, and eligible nonprofit recipients can compete for funding under the Solar for All grant competition.

Rooftop solar (and, in limited cases, storage) installation in single-family homes; Behind-the-meter solar installation at multifamily housing owned and operated by nonprofit and public organizations; Community solar pilot programs, many with municipal utilities and electric co-ops, which will lower energy costs for participating households.
