Choosing the right LiFePO4 battery is essential to optimize performance for your camping, RV, or backup application. Giant Power 200AH lithium batteries are ideal for storing solar energy, which is why they are considered one of the most popular Australian deep cycle batteries for Camping, Caravans, RV's, 4WD, Marine and 12 Volt power applications.

Battery Voltage: Here's the first plot twist--your battery's voltage (12V or 24V) plays a big role in how many solar panels you'll need. A 12V 200Ah battery, for instance, requires more current to charge than a 24V battery of the same capacity, meaning you might need more panels or higher wattage ones to get the job done

efficiently.
