

Where is solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

Why should you choose solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term. If you're looking for a reliable and experienced renewable energy service provider in the South Pacific, look no further than Solar Fiji.

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

What is SMA Sunny Island's New solar/diesel/battery hybrid system?

February 2013 saw the commissioning of the then-largest privately owned PV/Diesel/Battery hybrid system in the region. The system utilized the newly released SMA Sunny Island Multiclustert technology with 228kWp of PV and 1.1MWh of battery storage.

Solar Fiji specialize in the engineering, supply & installation of grid connect and off grid power systems. Official Distributor & Service Partner of Victron Energy. We draw on decades of experience in the solar industry and a track record of successfully deploying over 20MWp of solar projects in Australia and the South Pacific.

Solar power provides businesses with greater energy independence and resilience by reducing their reliance on

external energy sources, such as the grid. With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints.

Clay Energy was established in 1998 providing off-grid solar, wind, and micro-hydro systems for rural homes and communities in Fiji. In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region.

All solar panels are ideal for remote and isolated locations, saving the cost of running power mains wires. SPE's panels combined with our specially designed intelligent battery chargers will have enough power to operate efficiently even during limited sunshine.

Systems are designed to provide lighting and radio/cassette power for the users. Each SHS consists of 2x50W panels, a 12V Battery and a prepayment meter. Furthermore, the Solar Project is operated under a RESCO (Renewable Energy Services Companies) model.

Switch to residential solar energy today with Solar Hub. As a leading provider in New Zealand, Fiji, and the Pacific Islands, Solar Hub specializes in residential solar panel installations. Trust Solar Hub for reliable, sustainable energy solutions for your home.
