1.80KWP Hybrid Solar System for Leone Nakarawa in Nausori, Fiji. Solar Fiji supplied and installed an 1800W Canadian solar panel system for Leone Nakarawa house in Waila, Nausori, Fiji Islands. The solar system will generate an average of 1.80kWp, and the inverter is capable of powering a modern home that also has air conditioning.

As we saw above, the average UK home uses around 3,731 kWh per year. So a 5 kW system, or possibly a 4 kW system, would probably do the trick. A 3.5 kW system usually needs about 12 panels 2, and a 4 kW system might need 14 or 15. You'll need to measure your (south-facing!) roof to work out whether you can fit 14-15 panels up there.

Situated at the southern end of Taveuni Estates on the Coastal Road this 3-bedroom ocean front home is now available on Fiji's Garden Island. A caretaker cottage at the top of the lot accommodates housekeeping and grounds staff with long term experience at the property - a plus point for both potential full-time residents, and part-time ...
