These characteristics explain why these territories are subject to an original form of governance. The French Southern and Antarctic Lands include uninhabited territories in the Indian and Southern Oceans. Image: TAAF

What is the French Southern Territories nature reserve?

In 2006, the French Southern Territories Nature Reserve was created around the Crozet archipelago and the Kerguelen, Saint-Paul and Amsterdam islands. This reserve, which by 2022 will cover an area of 1.6 million km², is one of the largest marine protected areas in the world and has been a UNESCO World Heritage Site since 2019.

Does France have territorial sovereignty over the ̈́parses Islands?

Although France's claim to the three austral lands (Kerguelen, Saint-Paul and Amsterdam and Crozet) is no longer contested, it is facing two major challenges to its claim to territorial sovereignty over the ̈́parses islands.

What are the French Southern and Antarctic Lands?

The French Southern and Antarctic Lands include uninhabited territories in the Indian and Southern Oceans. Image: TAAF The ambiguous status of the TAAFs is set out in a law dated 6 August 1955, supplemented by a decree dated 11 September 2008.

Why are the scattered islands not linked to French polar strategies?

Firstly, the Scattered Islands are mostly coral atolls that formed around Madagascar. They are not linked to French polar strategies because of their tropical climate and face contested sovereignty by several countries including Madagascar and Mauritius.

The French Overseas Countries and Territories (New Caledonia, French Polynesia, Saint Barthélemy, Saint Pierre and Miquelon, Wallis and Futuna) accounted for 1.55% of France's total greenhouse gas emissions in 2018.

Terres australes et antarctiques françaises: French Southern and Antarctic Territory; TAAF) 7781 (432000) ,
